

Light the way to limitless performance

Kyocera's A3 TASKalfa MZ9500ci & TASKalfa MZ10500i Series streamlines workflows, brings professional clarity to output, and optimises operational costs. The series includes both colour and monochrome multifunction printer models, designed to support a wide range of high-volume office environments.

TASKalfa MZ9500ci & TASKalfa MZ10500i Series

A3 Colour & B&W MFPs: Copy, Print, Scan, and Optional Fax

Up to 80 ppm Colour | Up to 105 ppm B&W

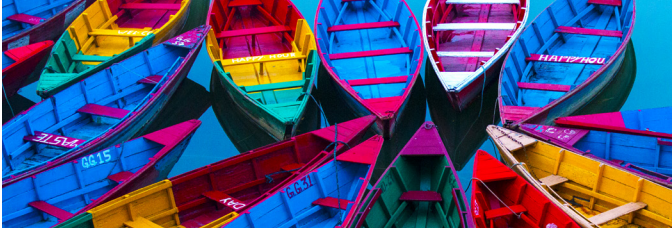

Cutting-edge 300 ipm, AI-enabled and Straight path scanner

Uninterrupted Printing with the innovative Dual Toner System

2,400 x 2,400 DPI with Integrated ICC Profiles

Enduring Power. Clear Results.

The TASKalfa MZ9500ci & TASKalfa MZ10500i Series delivers professional results for complex print and scan jobs. Featuring advanced workflow capabilities, dependable performance, and consistent colour output, these devices enhance operational efficiency and cost management.

Consistency that benefits the bottom line

Deliver stable output with built-in ICC colour profiles and automatic calibration technology, supporting long runs and minimising reprints.

Smarter workflow integration

The optional Fiery® printing system makes handling large print runs simple. make handling large print runs simple. They ensure precise colour accuracy, streamline job management, and help reduce production costs.

Strong protection for sensitive work

Advanced security keeps information safe throughout capture, routing, and output.

Efficiency that supports sustainability

Empower users to operate responsibly through actionable CO₂ and energy-use insights paired with sustainable toner-control technology.

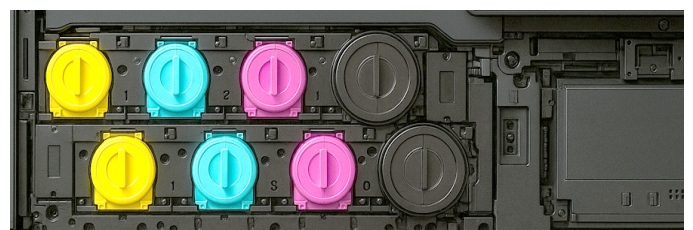

Sharper, clearer colour

Advanced toner formulation and ceramic-based image processing technology work together to deliver bright, vivid prints with exceptional clarity.

Reduce downtime with uninterrupted printing

Industry-first dual toner container system and high paper capacity keep moving, reducing downtime.

Powering High-Volume Print & Scan

- + **Handle large print jobs** with speed and reliability at reduced operational cost.
- + **Maintain a reliable workspace** with minimal interruptions and downtime, thanks to a compact design that saves space and simplifies tasks.
- + **Convert paper to digital** files quickly and securely.

Delivering Consistent High-Quality Color Output

- + **Translate ideas into colour-rich output** with clarity and consistency.
- + **Accelerate production from concept to final output** using advanced software options.
- + **Maximise budget efficiency** by reducing interruptions and reprints.
- + **Ensure polished results** with precise, reliable performance across long runs.

Ignite Your Workflows

The TASKalfa MZ9500ci & TASKalfa MZ10500i Series brings stability, speed, and simplicity for easy handling of high-volumes of information every day, working with greater control and fewer disruptions.

Boost Efficiency While Reducing Costs

 **Handle high-volume jobs**, with flawless performance that enables seamless, uninterrupted workflows, thanks to print speeds of up to 105 ppm and scan speeds reaching 300 ipm.

 **Keep downtime to a minimum** with our dual-container toner technology — swap cartridges even while the print job continues. Get back up and running in just two and a half minutes with rapid maintenance.

 **Maximise space efficiency** with a compact device that takes up to 36% less floor space for the finisher compared to predecessor models.

Digitise Files Faster and Easier

 **Our AI-powered scan solution can handle up to 500 pages at once** at a speed of 300 images per minute, while automatically detecting errors in the process.

 **Scan more types of documents in one step** from thick media to IDs, with our leading straight-path scanner and intelligent tilt correction.

 **Digitise instantaneously with pre-installed cloud capture** and barcode scanning to make documents searchable and editable with a single touch.

Security That Gives Peace of Mind

Focus on the task at hand knowing that information is locked down with global security standard certifications such as FIPS 140-3 and designed to meet ISO/IEC 15408 and more.

Advanced encryption and best-in-class compliance frameworks means staying ahead of regulation changes and prevent breaches.

Make IT configuration and monitoring simple with CCRX, centralised, browser-based management with three preset levels.

Prevent unauthorised copying or scanning with technology that proactively scans for sensitive watermarks, stamps or confidential text.

Sustainability That Pays For Itself

Reduced waste through condition-based calibration that prevents print defects before they occur.

Monitor CO₂ emissions and energy use in real time to reduce environmental footprint.

Lower environmental impact with energy-efficient system design and long-life components.

Technology designed to reduce consumables usage and support more sustainable operations.

Brilliant Colour for Every Page

Optimise colour quality across print jobs from start to finish, enabling cost reduction without compromise.

High-Volume Print That Makes an Impact

Reliable, repeatable colour across every job with high-quality colour supported with 2,400x2,400 DPI for strong print clarity.

Precise colour, regardless of the size or complexity of print jobs thanks to built-in ICC colour profiles and media catalogue function.

Highly accurate front-to-back registration ensures designs come out clear, aligned and in the right spot for every print.

Flexible reproduction for diverse applications, from internal materials to polished external communications with paper sizes of up to SRA3 (13"x19").

Steady Quality, Bigger Savings

Unlike competitor devices where colour needs frequent calibration, the TASKalfa MZ9500ci & TASKalfa MZ10500i Series boasts built-in, condition-based technology for faster, consistent print quality.

Other devices

TASKalfa MZ9500ci Series

Add a Professional Finish

Fast print software performance through the optional Fiery® printing system and automated workflows speed up review cycles, cutting turnaround times and overall campaign costs for high-volume CRDs. Combine it with a finisher that provides flexibility and takes up 36% less floor space than previous models.

Mailbox

Sort print jobs into separate stacks for different users.

Booklet Maker

Print professional booklets that consistently offer a high-quality look and feel.

Inserter*

Add pre-printed covers, inserts, or specialty pages with ease.

Z-Fold*

Automatically fold invoices, brochures, and forms perfectly, for a flawless presentation.

*The inserter and z-fold finishers can be combined and included together on the devices.

Smarter workflows. Sharper results.

Boost efficiency to reduce costs with a device built for demanding workloads of print, scan and fax.

Advance digitisation handling up to 300 images per minute powered by AI and featuring next-level straight-path scanning.

High-level security for peace of mind by matching global security standards.

Brilliant colour that's stable, due to automatic calibration and colour profiling.

Simple workflows keep the device printing consistently with reduced downtime.

Optimise uptime with fewer manual interruptions for complex print and scan jobs.

Sustainable impact to reduce energy usage and environmental footprint.
